

Patologia periastraglica

- Trauma in inversione
- Diversi gradi di interessamento legamentoso

Patologia periastraglica: trauma in inversione

Sequenza cinematografica

Fase I: PAA

Fase II: PAA + PC

Fase III: PAA + PC + LEG. CERVICALE.

Fase IV: PAA + PC + LEG. CERVICALE + PAP

Patologia periastraglica

Coinvolgimento legamentoso

GRADE I : Distrazione

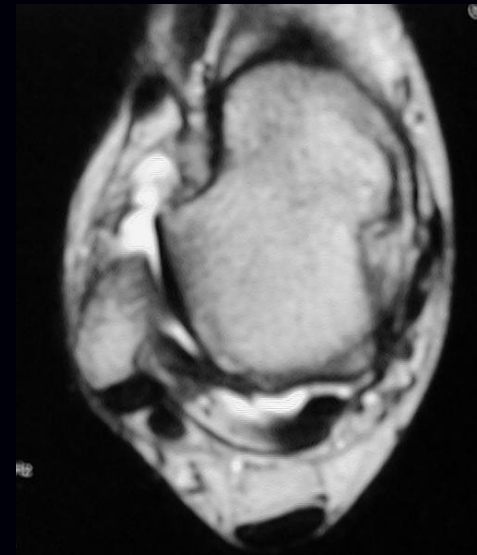

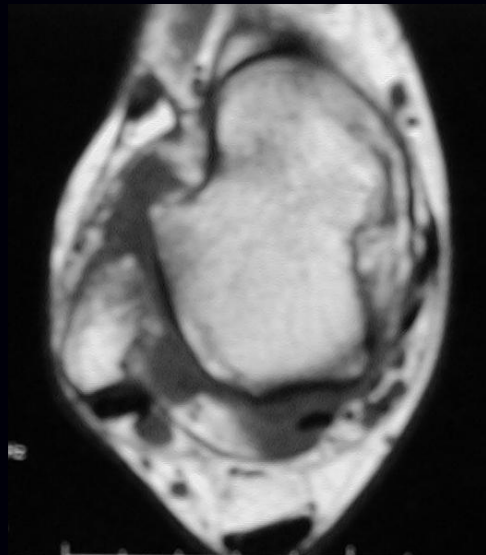

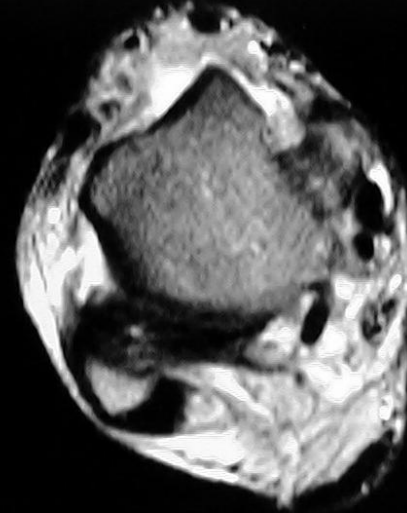

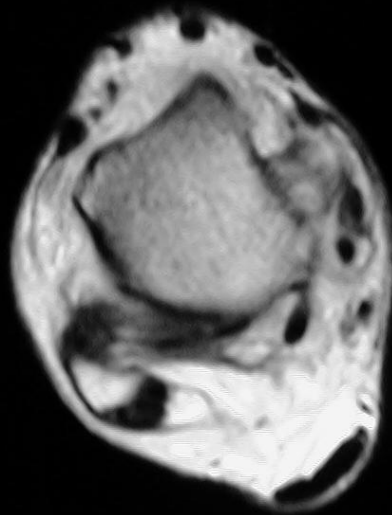

GRADE II: Lesione parziale

GRADE III: Lesione completa

GRADE IV: Lesione completa + interessamento
osteocondrale

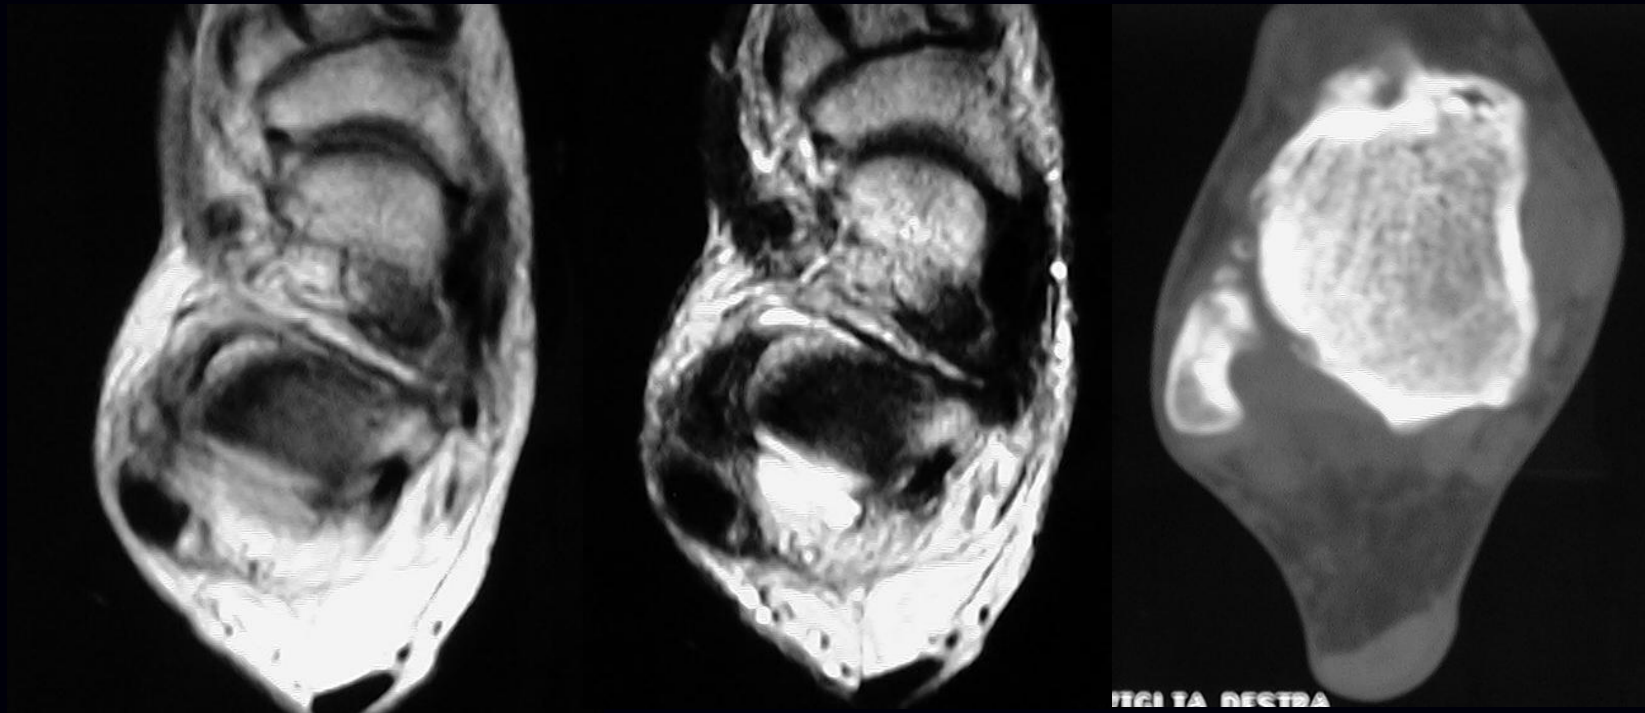

Patologia periastraglica

ACUTA

Patologia periastraglica

CRONICA

Patologia periastraglica

Leg. deltoideo

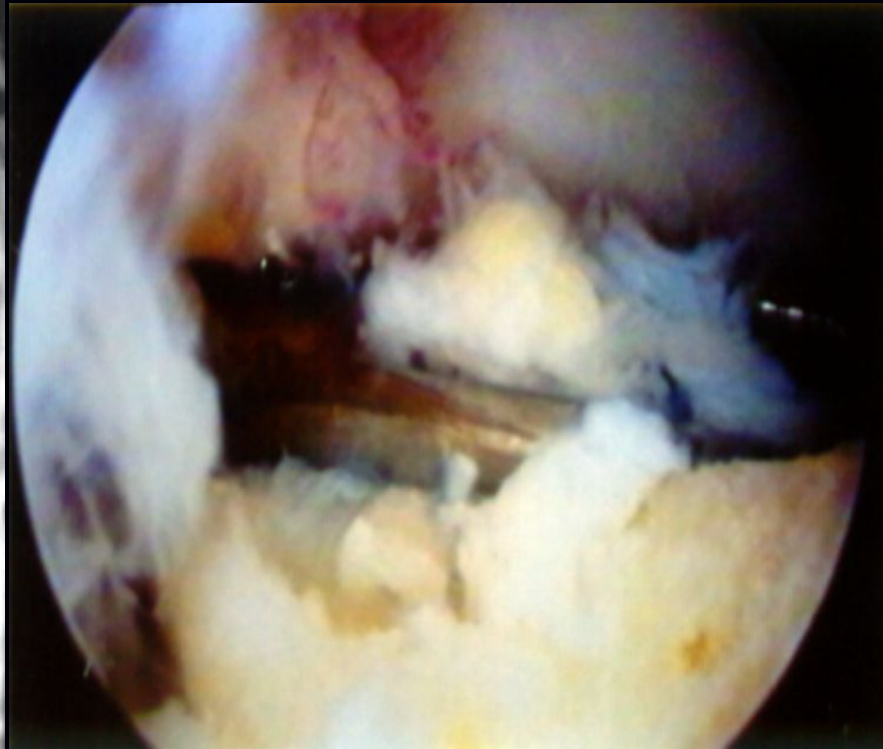

Lesioni osteocondrali

Contusione ossea

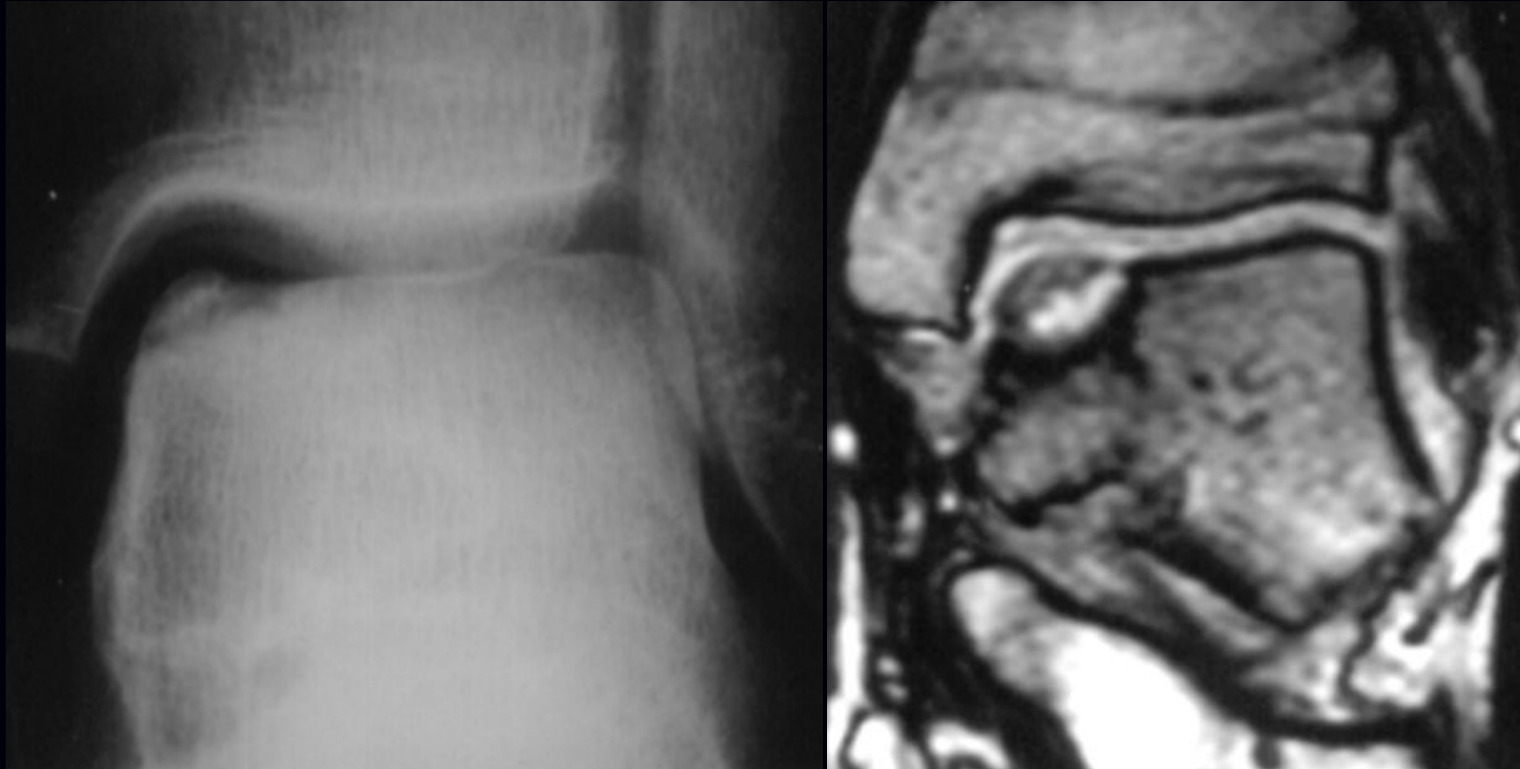

Lesioni osteocondrali

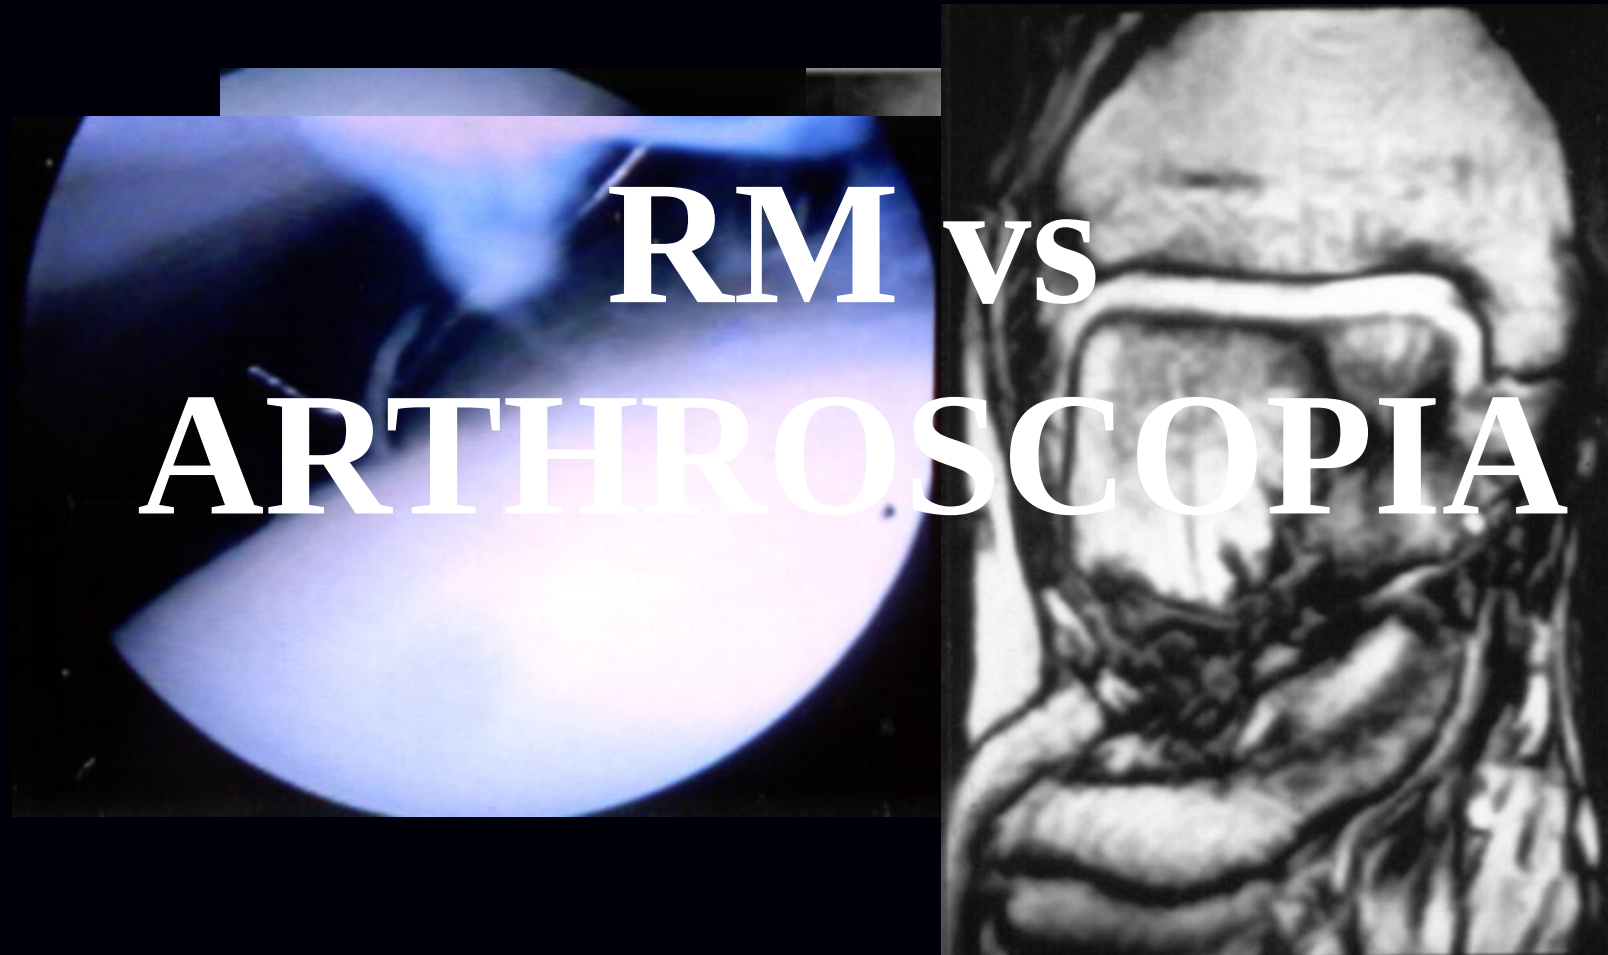

Frattura osteocondrale

Lesioni osteocondrali

Frammento stabile o instabile

Lesioni osteocondrali

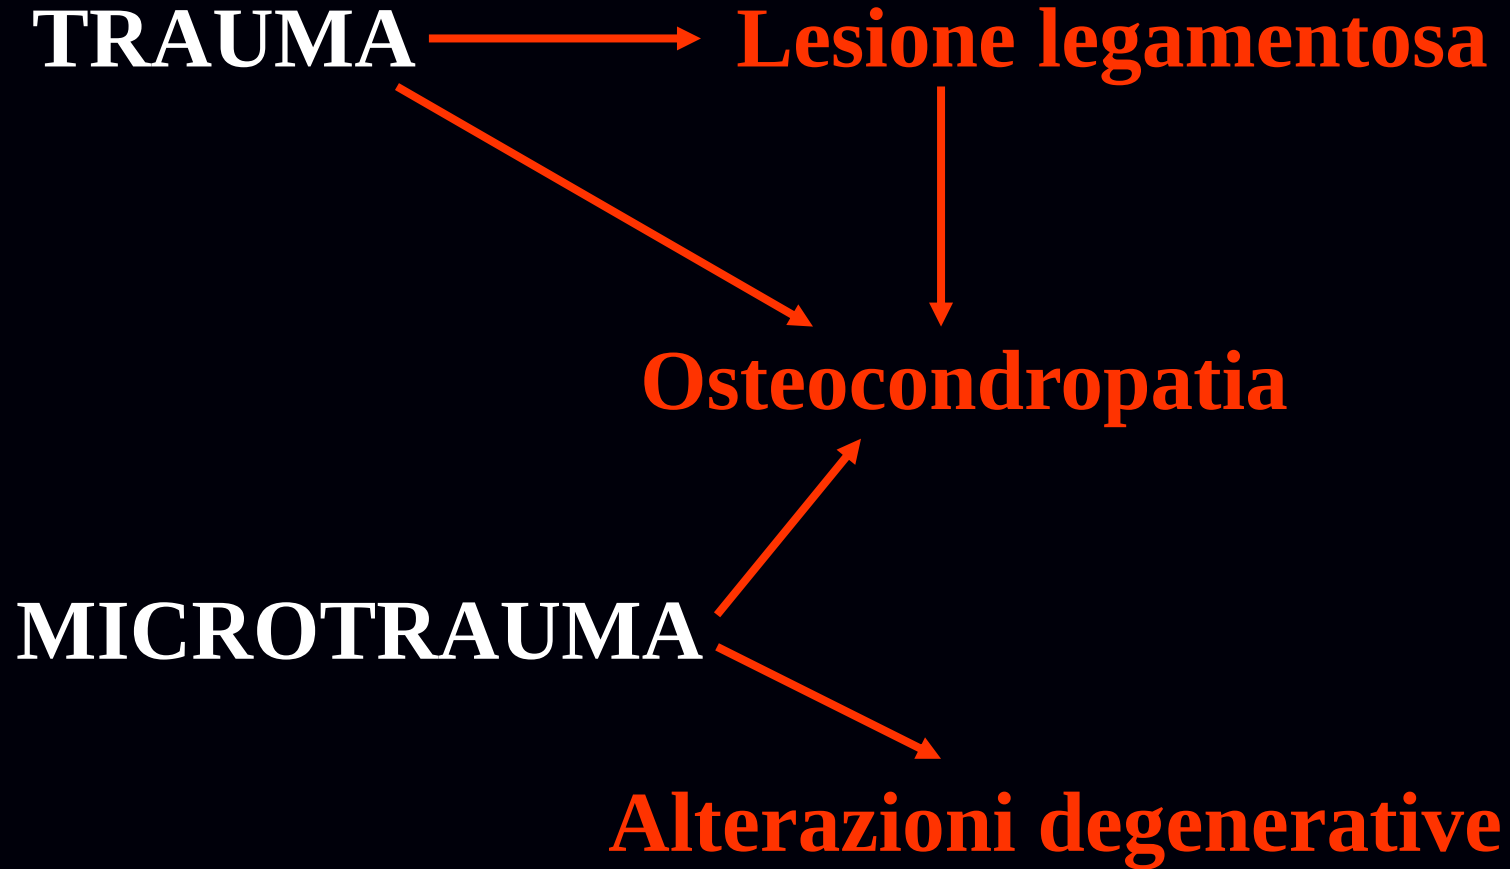

Sindrome del seno del tarso

TRAUMA → **Lesione legamentosa**

Osteocondropatia

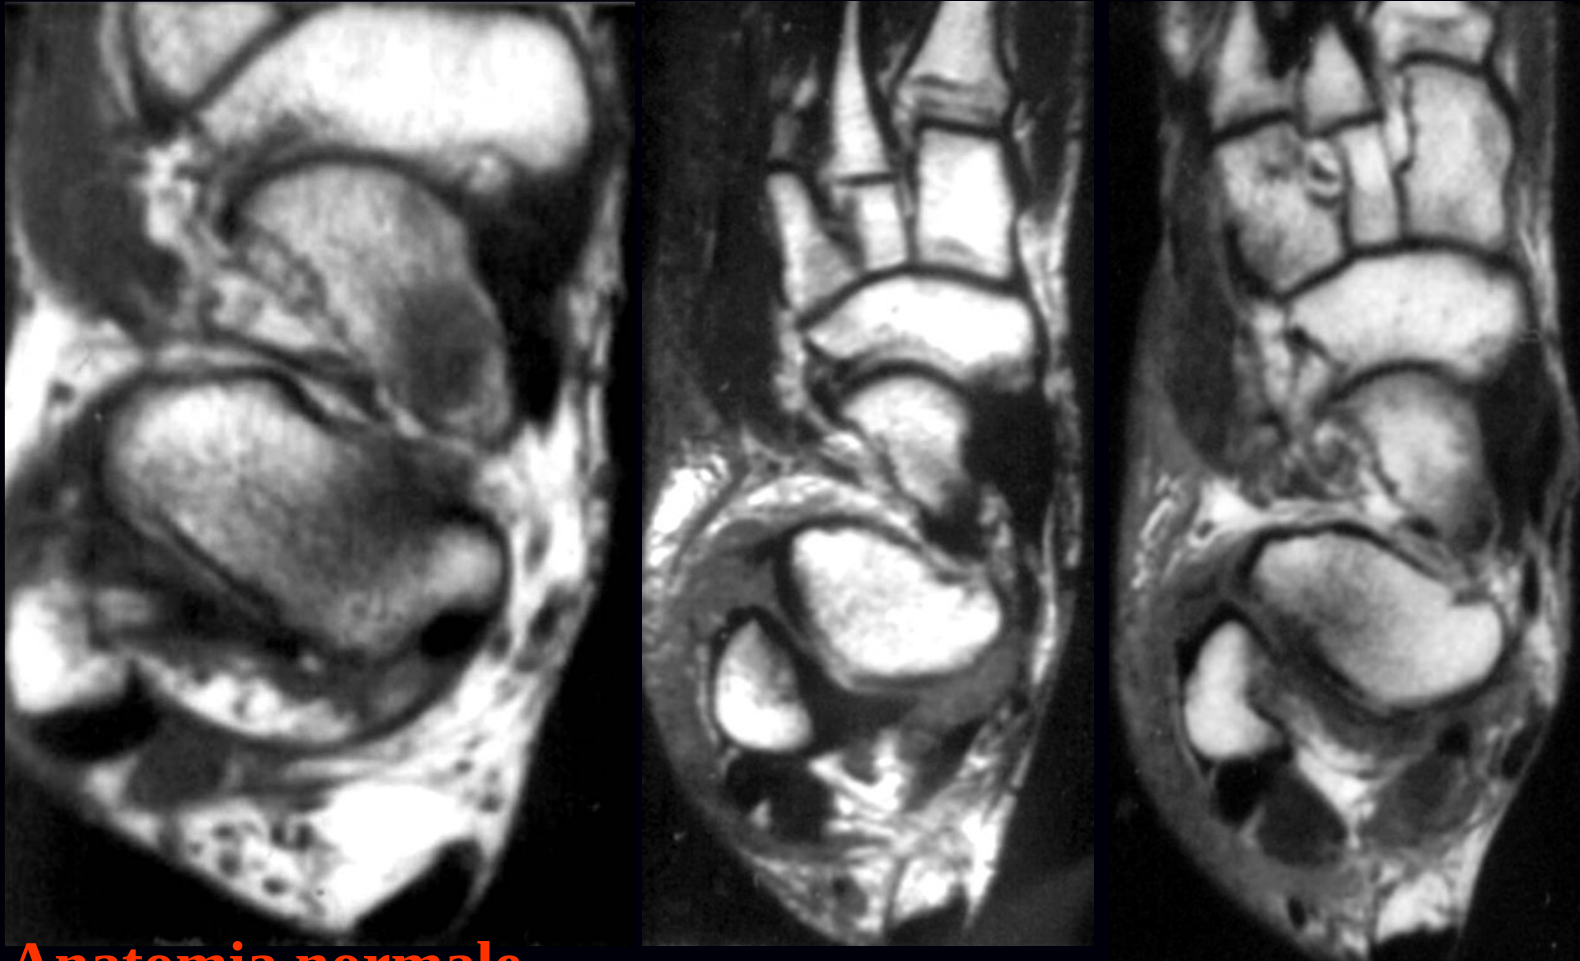

MICROTRAUMA

Alterazioni degenerative

Sindrome del seno del tarso

Interessamento legamentoso

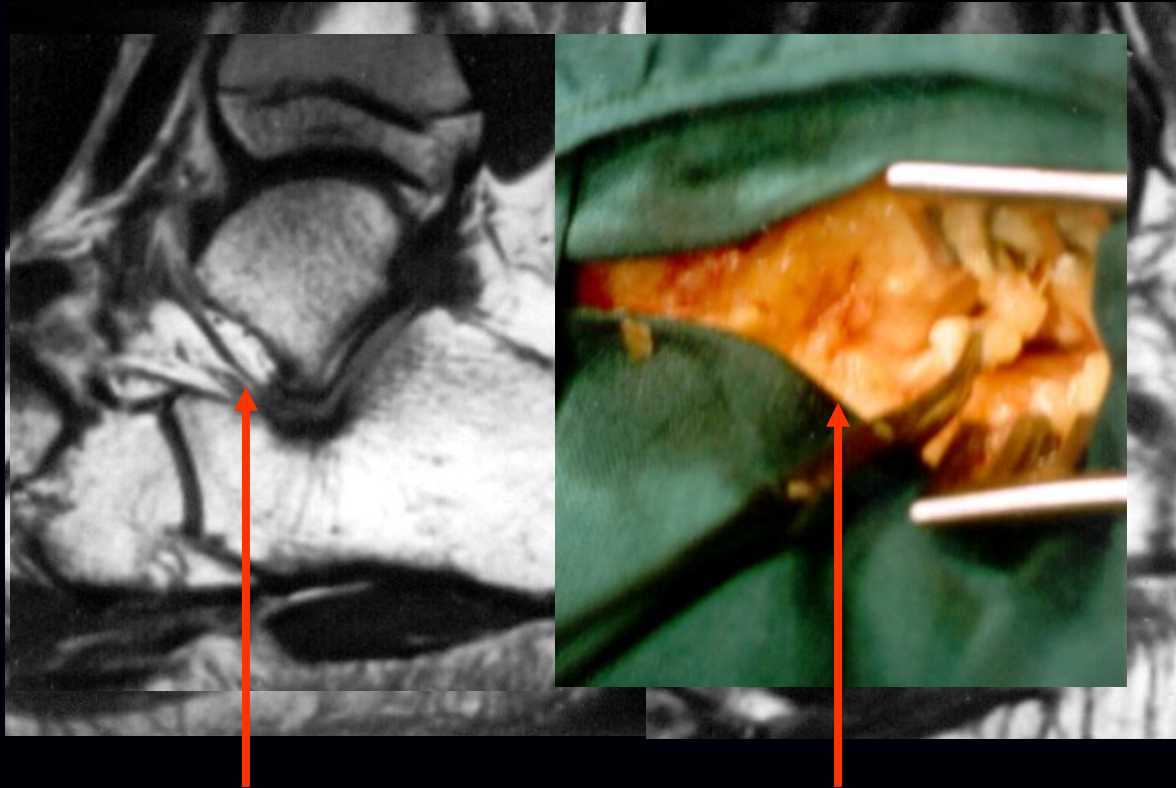

Anatomia normale

Sindrome del seno del tarso

Legamento cervicale:

LESIONE PARZIALE

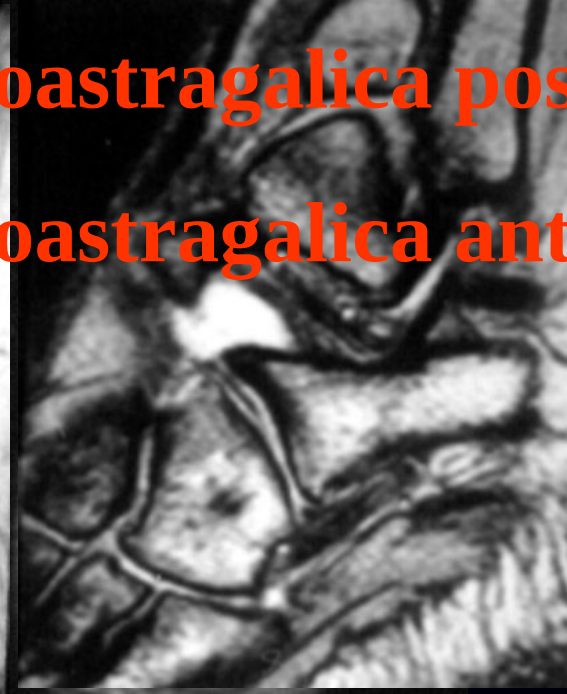

FASE ACUTA

FASE CRONICA

Sindrome del seno del tarso

CISTI SINOVIALI

- dalla sottoastragalica posteriore
- dalla sottoastragalica anteriore

Sindrome del seno del tarso

PATOLOGIA CARTILAGINEA

GRABO III-IV

Impingement di caviglia

Impingement osseo

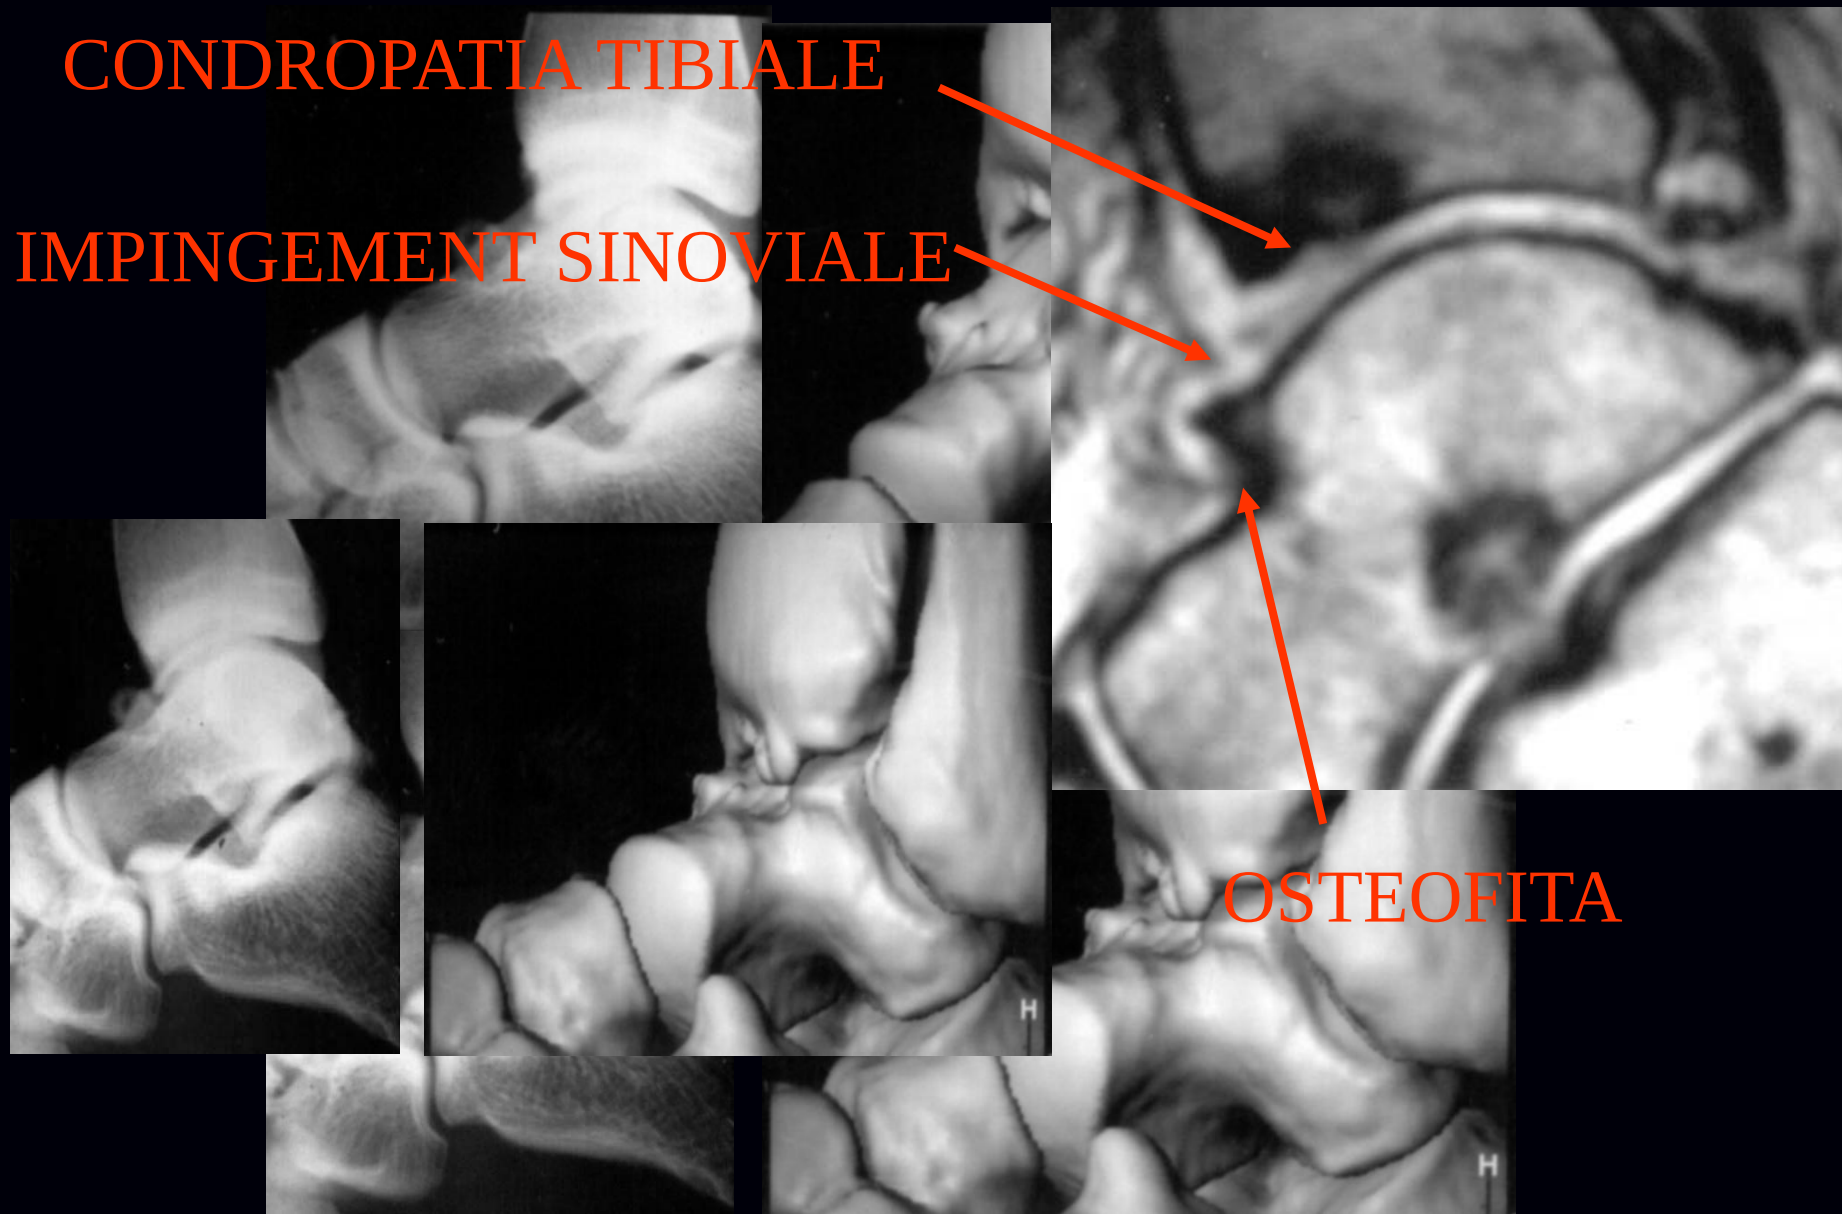

Impingement sinoviale:

- anteriore
- posteriore
- sindrome meniscoide

Impingement di caviglia: osseo

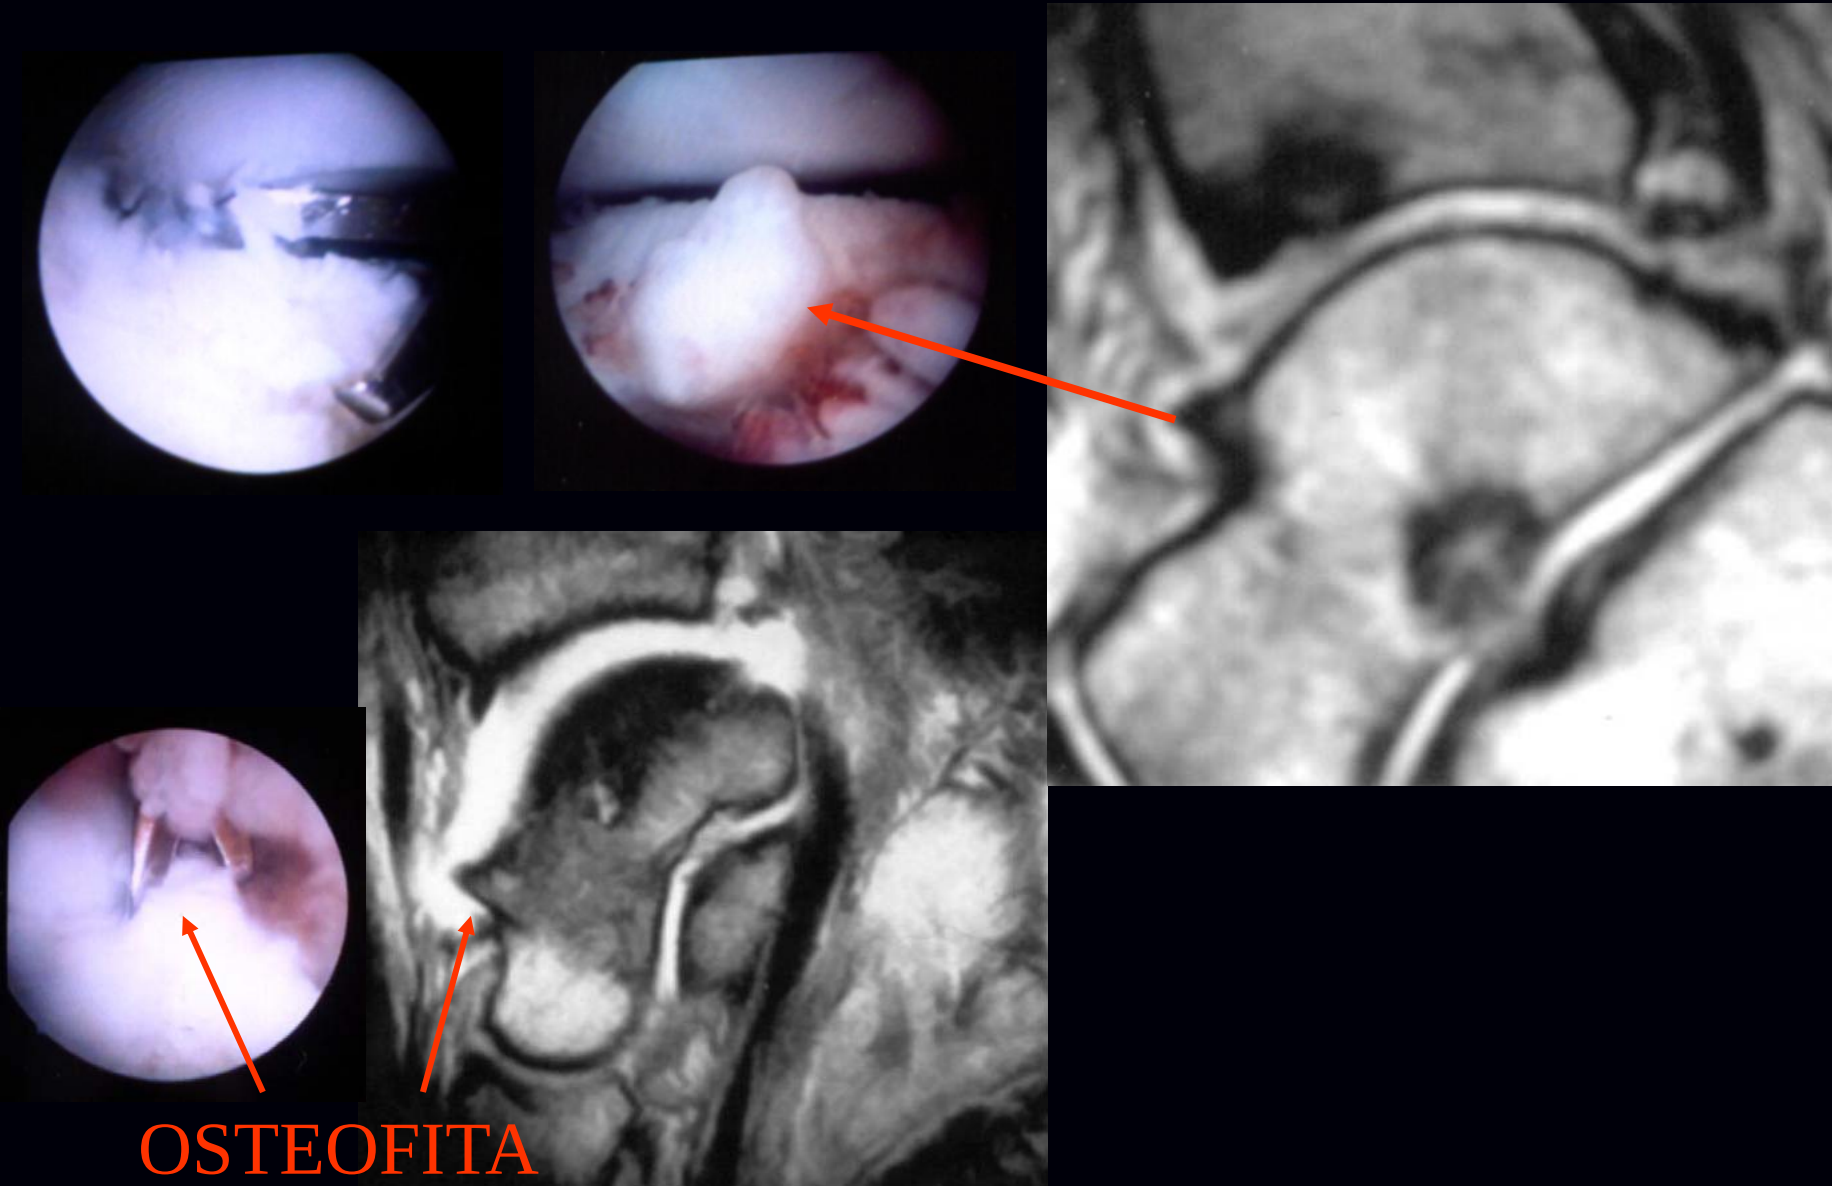

CONDROPATIA TIBIALE

IMPINGEMENT SINOVIALE

OSTEOFITA

Impingement di caviglia: osseo

**SINDROME DA
SOVRACCARICO**

**INSTABILITA'
POST-
TRAUMATICA**

IMPINGEMENT SINOVIALE:

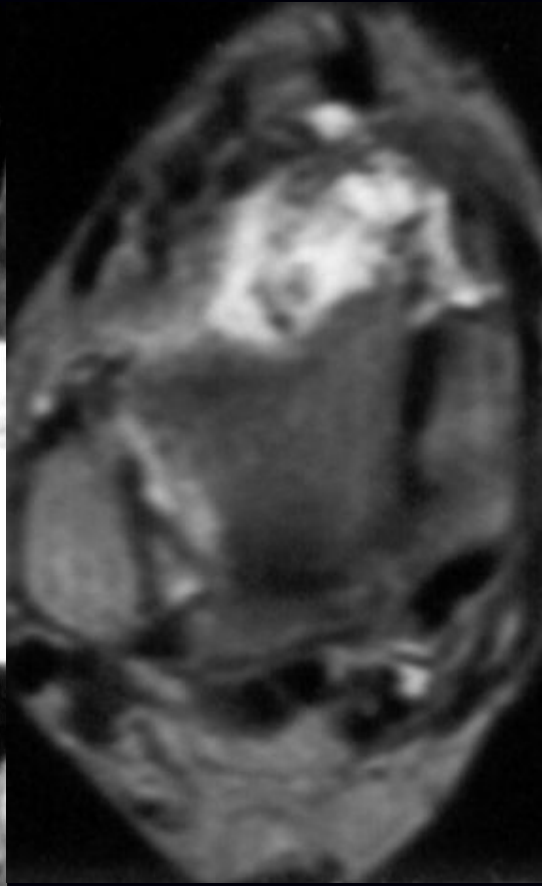

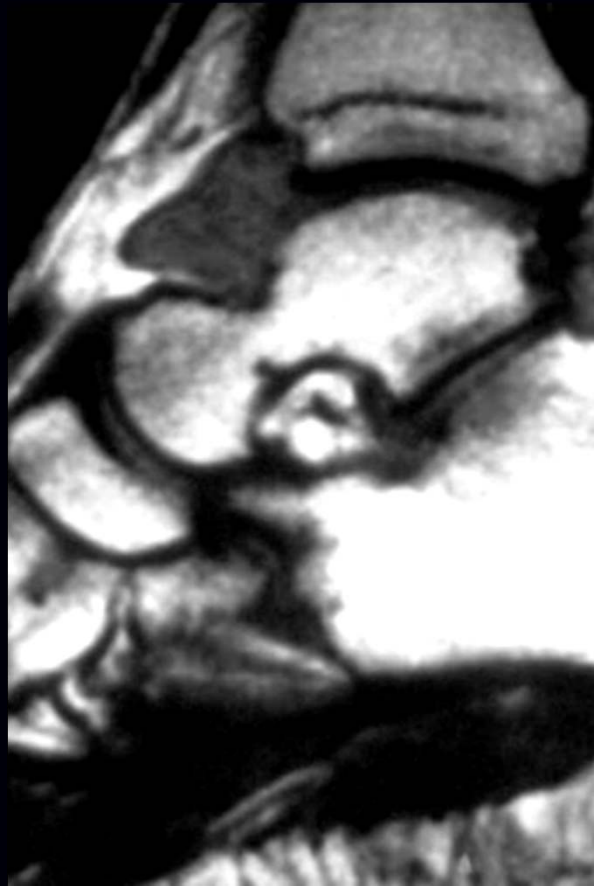

ANTERIORE

POSTERIORE

SINDROME MENISCOIDE

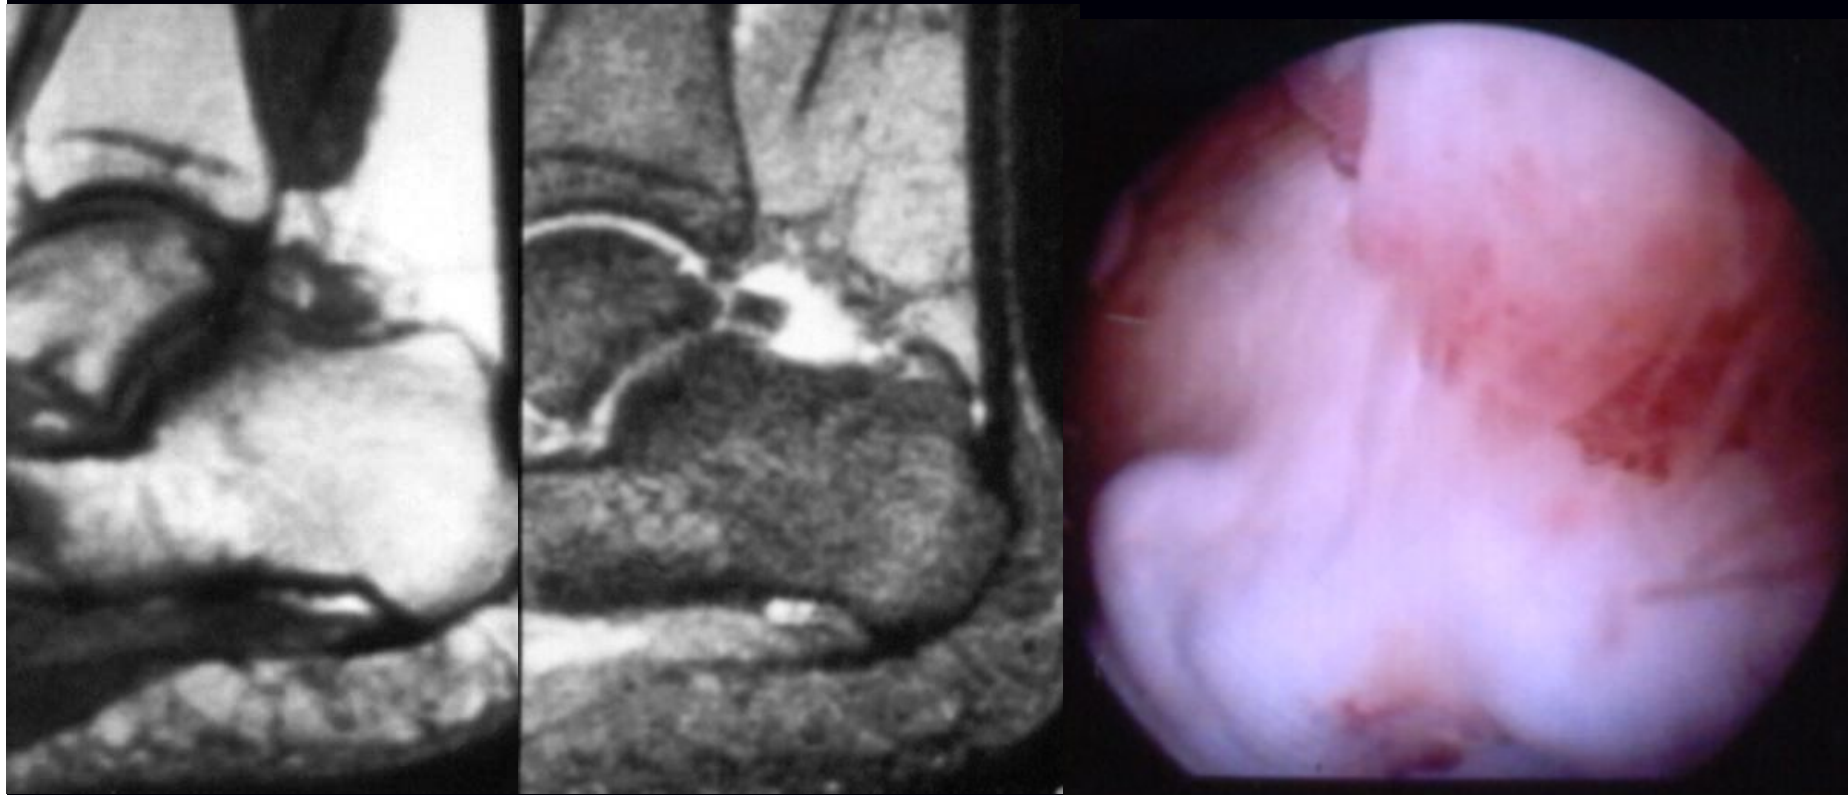

Impingement di caviglia: sinoviale

Anteriore

Impingement di caviglia: sinoviale

Posteriore

Impingement di caviglia: sinoviale

Sindrome meniscoide
